Year 4: Term 1.1
Theme: The caring school and Feelings, friends and friendships

Learning Objectives:	
R3a	The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.
R3d	The importance of self-respect and how this links to their own happiness.
R3e	That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
R2a	How important friendships are in making us feel happy and secure, and how people choose and make friends.
R2b	The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.
R2c	That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
R2d	That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
R3b	Practical steps they can take in a range of different contexts to improve or support respectful relationships.
R4a	That people sometimes behave differently online
R4b	That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others including when we are anonymous.
R4d	How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.
H1c	How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
To learn how to make positive choices.	
To know that choices have consequences.

Year 4: Term 2.1 and 2.2
Theme: My healthy body and Caring for my body

Learning Objectives:	
H1a	That mental wellbeing is a normal part of daily life, in the same way as physical health.
H1e	The benefits of physical exercise, time outdoors, community participation, voluntary and service- based activity on mental wellbeing and happiness.
H1f	Simple self- care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests.
H2b	The benefits of rationing time spent online on their own devices and the impact of positive and negative content online on their own and others mental and physical wellbeing
H2g	Where and how to report concerns and get support with issues online
H3c	The risks associated with an inactive lifestyle (including obesity).
H3d	How and when to seek support including which adults to speak to in school if they are worried about their health.
H4c	The characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).
H6c	The importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn.
H6d	About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
H6e	About personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.
H6f	The facts and science relating to allergies, immunisation and vaccination.

Year 4: Term 3.1
Theme: Keeping myself safe

Learning Objectives:	
R4c	The rules and principles for keeping safe online, how to recognize risks, harmful content and contact, and how to report them.
R5a	What sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).
R5b	About the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
R5d	How to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.
R5e	How to recognise and report feelings of being unsafe or feeling bad about any adult.
R5f	How to ask for advice or help for themselves or others, and to keep trying until they are heard.
R5h	Where to get advice e.g. family, school and/or other sources.
H2g	Where and how to report concerns and get support with issues online.
H7a	How to make a clear and efficient call to emergency services if necessary.
H7b	Concepts of basic first aid, for example dealing with common injuries, including head injuries.
To explore the concepts of safety and risk	
To explore personal safety indoors and outdoors

Year 4: Term 3.3
Theme: The world of drugs

Learning Objectives:	
H5a	The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug taking.
To increase awareness of the different types of drugs, their effects and dangers.	
To revise health and safety skills and awareness of handling medicines.	
The increase knowledge of the effects and dangers of smoking.	
To explore feelings around smoking and smokers.	
To reinforce awareness of peer pressure.

Year 5: Term 1.1
Theme: The caring school and Bullying, pressures and risks

Learning Objectives:	
R2c	That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
R2d	That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
R2e	How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.
R3a	The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.
R3d	The importance of self-respect and how this links to their own happiness.
R3e	That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
R3f	About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.
R3g	What a stereotype is, and how stereotypes can be unfair, negative or destructive.
R4b	That the same principles apply to online relationships as to face-to face relationships, including the importance of respect for others online including when we are anonymous
R5f	How to ask for advice or help for themselves or others, and to keep trying until they are heard.
R5g	How to report concerns or abuse, and the vocabulary and confidence needed to do so.
R5h	Where to get advice e.g. family, school and/or other sources.
H1h	That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
H2e	That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
H2g	Where and how to report concerns and get support with issues online.
To know it is their right not to be hurt and to live without fear.

Year 6: Term 1.1
Theme: The caring school and Growing up - relationships

Learning Objectives:	
R1b	The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
R1d	That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
R1e	That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
R2b	The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.
R2d	That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
R2e	How to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.
R3a	The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.
R3d	The importance of self-respect and how this links to their own happiness.
R3e	That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
R3h	The importance of permission- seeking and giving in relationships with friends, peers and adults.
R4b	That the same principles apply to online relationships as to face-toface relationships, including the importance of respect for others online including when we are anonymous
R4d	How to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.
R5f	How to ask for advice or help for themselves or others, and to keep trying until they are heard.
H1d	How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
To discuss what we mean by "going out" with someone and what we mean by love.	
To learn how to make positive choices.	
To know that choices have consequences.

Year 6: Term 3.1
Theme: Rollercoaster – The ups and downs of puberty

Learning Objectives:	
R3h	The importance of permission- seeking and giving in relationships with friends, peers and adults.
R5f	How to ask for advice or help for themselves or others, and to keep trying until they are heard.
R5g	How to report concerns or abuse, and the vocabulary and confidence needed to do so.
R5h	Where to get advice e.g. family, school and/or other sources.
H8a	Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
H8b	About menstrual wellbeing including the key facts about the menstrual cycle.

Pupils will need reminding that we are all different and we go through these changes at different times If videos are to be used in this topic it is recommended that teachers view them beforehand to be familiar with content and approach Some Y6 teachers may wish to include human reproduction including conception (and that this can be prevented) developing links with the Science curriculum The national curriculum 2014 includes some changes to Science curriculum Pupils may prefer to work in single gender groups. The class teacher can decide when/if this is appropriate but it is recommended that the same work is done with both groups at all times It is recommended that a question box is used to de-personalise issues Menstruation can be a very scary subject for some children and as such, it should be handled with sensitivity Class teacher may wish to involve School Nurse to talk to pupils about menstruation and other issues around puberty, This is a sensitive topic and it may prompt disclosures from children. Teachers should be prepared for this and should know the school policy for dealing with such disclosures

Year 6: Term 3.2
Theme: The world of drugs and being safe

Learning Objectives:	
H5a	The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug taking.
R5h	where to get advice e.g. family, school and/or other sources.
H7a	How to make a clear and efficient call to emergency services if necessary.
H2a	That for most people the internet is an integral part of life and has many benefits.
H2b	The benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.
H2d	Why social media, some computer games and online gaming, for example, are age restricted.
H2e	The internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
H2g	Where and how to report concerns and get support with issues online.
R4a	That people sometimes behave differently online, including by pretending to be someone they are not.
R4c	The rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.
To understand about the laws on drugs, alcohol and tobacco and about reasons for having such laws	
To know how to take part in a discussion or debate	
To consider other people's opinions and a range of relevant factors when making a decision
